thoroughly designed to maximize limited resources so that access to quality early childhood programs is improved for all children.

The **Child and Adult Care Food Program** provides reimbursement for meals served in participating institutions when those meals meet the federal US Department of agriculture (USDA) regulations and align with the current Dietary Guidelines for Americans. The CACFP is available to infants, children, and impaired or older adults enrolled in institutions that participate in the CACFP. Eligible institutions are family day care homes, child care centers, afterschool and outside school hour facilities, adult day care facilities, and emergency shelters.

The **School Readiness Program** provides education to families, communities, service providers, and schools on how to support and development of skills and positive behaviors, as well as enhance the environment in which children spend their time.

The Children & Family Services Division provides state and federally mandated protective services to children who are abused, neglected or abandoned. This includes receiving and investigating reports of child abuse and neglect, working to prevent domestic violence, helping families to stay together or reunite, and finding placements in foster or adoptive homes.

Adoption: Children who are available for adoption through the Child and Family Services Division have been removed from their own families because of

abuse, neglect or other family problems that make it unsafe for them to remain at home. The rights of the family have been terminated making the children available for adoption. Married couples or single adults who have an approved pre-placement evaluation or adoptive home study may adopt in the State of Montana. The Child and Family Services Division helps with the application for a home study and provides training for all foster and adoptive parents.

Foster Care: Children needing foster care range in age from infants to teenagers. They come from many different backgrounds and some have been abused, neglected, or abandoned by their parents or other caretakers. Foster parents are expected to provide for the physical and emotional needs of children placed in their home and provide a safe and stable home environment. Anyone who is at least 18 years of age and in good physical and mental health may apply to become a foster parent. Single people, couples, people with or without children, all may be eligible. The ability to provide an environment that protects and promotes the well-being of a child or children is most important.
